

教学计划

(副校长 费国平)

提供汉语教育，传播中国文化，是中文学校办学之本。丰富教学内容，完善教学规划，是中文学校当务之急。

开学以来，广大教师在中文学校这片热土上辛勤耕耘，为制定今年的教学计划付出大量的心血（详见中文学校网页教学计划栏）。尤其是二年级的孙玉萍老师和赵钧老师，配合默契，潜心备课，制定的教学方案详细周全。夏红原老师的教学重点，遵循了细水长流，循序渐进的原则，注意复习学过的知识，达到温故而知新的目的。

高年级的老师为提高学生阅读能力，更是煞费苦心。朱向毅老师的日常汉语阅读材料，让学生理解了“美美服装店，童装八五折”的正确含义。

许佩珍老师的授课方式别具一格，连CCTV-4的《快乐学汉语》节目也不放过。班上的家长反映，孩子们的词汇量日增夜长，初次阅读散文，虽不解其义，但能通篇阅读，一气呵成。虽不能字正腔圆，但洋腔中夹着一丝京调，听起来别有一番风味。

培养一个孩子系统接受汉语教育和中国文化，是中文学校的十年大计，为此，教师和校方密切配合，在编写教学计划的同时，还为制定完整的教学规划作了不懈的努力。根据去年教师会议上的提议，董音老师在暑期对数套中文教材作了比较分析，提出整体教学的初步设想。开学伊始，众多教师积极参与，集思广益，对教材选择，教学要求和教学方式提出了宝贵的意见。校方根据教师的建议，从2007-2008学年起，采用暨南大学新编的《中文》作为主教材。同时，成立教务委员会，对小学，初中，高中的教学方向和教学要求作详细规划。届时，请各位家长注意查看中文学校网站最新消息。

Curriculum Planning

The basic mission of Chinese School is to educate people in Chinese language and culture. The most prominent tasks that face the Chinese School include the enrichment of teaching contents

and curriculum planning.

Since the start of the semester, our teachers have been working hard to make up this year's curriculum plan

(for details, see the Curriculum Section of the School's website). It is especially worth mentioning that Ms. Yuping Sun and Ms. Jun Zhao, with cooperation and hard work, made a perfect and detailed curriculum plan for the second graders. Another plan made by Ms. Hongyuan Xia paid close attention to the principle of studying little by little, from the simplest to most complicated materials. Her plan required students to gain new knowledge through reviewing what had been learned in the past.

The teachers of higher graders worked to improve the reading skills of students. Using reading materials from daily life, Ms. Xiangyi Zhu taught students the meanings of Chinese phrases such as "Beauty" apparel store and 15 percent discount for children's clothing," which are usually difficult to understand for non-native speakers.

Ms. Peizhen Xu's teaching method was also quite unique, with a variety of median tools including the program of "Learning Chinese Happily" from CCTV-4. According to some parents, the students learned Chinese words much more rapidly. It is very amusing to hear students read some prose in mandarin with American accents, yet without hesitation. Sometimes, they could hardly understand the meaning of the prose.

For students to have a better grasp of the Chinese language and culture, teachers and school administrators are working closely to make long-term curriculum plans. Following the proposals made at the teacher's conference last year, Ms. Yin Dong performed a comprehensive study to compare advantages and disadvantages of a variety of Chinese textbooks during the summer vacation and proposed an outline of how to improve teaching quality. Starting at the beginning of this semester, many teachers actively participated in discussions and contributed greatly to the selection of textbook, teaching requirements, and teaching approaches. To respond to these contributions, the school administration has made a decision to adopt the new edition of "Chinese" published by Jinan University as the main teaching material. In addition, the School will set up a Committee of Teaching Affairs responsible for making detailed long-term plans for the teaching objectives and requirements for all grade levels. We encourage concerned parents to read the School webpage for new developments at the School and to actively participate in the planning process.
